Education

B.E, Computer Science & Engineering, MITE 2020 - 2024

CGPA: 8.78/10.00 — Course works: Object-Oriented Programming, Database, Operating System, Networking.

Pre-University Education - PCMCs, MGM Pu College 2019 - 2020

Aggregate: 92.33/100 — Karnataka State Board

Secondary School (SSLC) - Christ School Manipal 2017 - 2018

Aggregate: 79.20/100 — CBSE

Skills

Languages HTML5, CSS3, C, Java, JavaScript, C++, SQL, Python

Frameworks & Libraries React.js, Bootstrap, Tailwind CSS

Tools & Tech Git, GitHub, VScode, Figma, Canva

Internship

DLithe | AIML Intern Aug' 23 - Sep' 23

- During my internship at DLithe, I learned about AI and machine learning through hands-on experience.
- Gained practical knowledge in machine learning algorithms, data preprocessing, model development, and evaluation.
- Involved in Development of Crop Price Prediction Website providing users with the ability to predict the future prices of various crops based on historical data and selected parameters. — ([Source Code](#))

Projects

Venomous Snake Detection Website — HTML5, CSS, Flask, Python, AIML, Bootstrap — ([Source Code](#))

- Developed a Custom Model to Detect Venomous Snakes with accuracy of 89% using features like Eyes, Tongue, Fang, Head and Pit.
- This project presents "Venomous Snake Detection: A CNN-Based Classification of Indian Species," using Convolutional Neural Networks (CNNs) for automated identification, specifically adapted for Indian snakes.

Weather App Website — HTML5, CSS, JavaScript, GitHub — ([Source Code](#))

- Developed a responsive weather app website that displays real-time weather data for user-selected locations.
- Integrated a third-party weather API to fetch current weather conditions, including temperature, humidity, wind speed, and weather forecasts.

Real Estate Website — HTML5, CSS, MERN, Tailwind, GitHub — ([Source Code](#))

- Designed and developed a responsive website for a real estate platform to showcase property listings with detailed information such as location, price, and amenities.
- Implemented search and filter functionality to allow users to easily browse properties based on criteria such as location, property type, and price range.

Courses

- Foundation: Data, Data Everywhere, Coursera
- Programming In Python, Coursera
- Upgrading to Java 8, Infosys Springboard
- UI/UX Course, Great Learning

Languages

English | Hindi | Kannada

Hobbies

Photography | Editing | Tech and Gaming | Outdoor Activities
